

Dealing with Drug Seekers

Speaker: Dr Nick Carr

Nick Carr is a GP in St Kilda and previously Associate Lecturer in the Department of General Practice at The University of Melbourne. For the last 15 years Nick has run workshops on drug-seeking behaviour and its management for GP registrars in Victoria and for doctors around Australia.

Come along to this workshop and you will hear from a previous 'drug-seeker' who will share their experiences with you.

This interactive workshop will also help you to learn more about drug-seeking behaviour and the management of doctor-shopping consultations.
